

ASG Dynamic Income Fund - I1 / A1 USD

International Bonds Portfolio

As of May 31, 2025

INVESTMENT STRATEGY

The fund's investment objective is to achieve Income and long-term capital gains through a strategic allocation of its assets in a global diversified income-generating portfolio.

The fund invests in Preferred Securities, Senior Bonds, Junior and Senior Subordinated Debts, Hybrids Securities and Contingent Convertible Bonds.

Through a dynamic and active investment approach, ASG Capital strategically invests in Companies with strong balance sheets and sustainable earnings patterns that we believe they will reach a performance over and above an equivalent static portfolio. In addition, the investment managers use a flexible allocation method to achieve consistent risk adjusted returns.

Currency Hedging may be employed to protect against foreign exchange risk.

PERFORMANCE COMMENTARY

The ASG Dynamic Income Fund performance share class USD I1 was up +1.94% this month. The ASG Fund overperformed its benchmark index, which was up only +0.28%. The ASG Fund also over-performed the main USD subordinated/preferred security index (PFF), which rose +0.97% on the month.

The volatility 'Move index' fell to just over 100 on average during February, reflecting a more stable environment in Fixed Income markets.

We maintain balanced allocations:

- Neutral on long maturity dated bonds. The duration was reduced slightly to 4.10 years.
- Neutral Additional Tier 1 bonds, allocation was down to 14.37%.
- Neutral Subordinated Floaters.
- Neutral Cash and Short dated maturity bonds less than 1year.

US 2year swap rates rose from 3.38% to 3.67%. US 10year swap rates rose also from 3.63% to 3.86%.

The DXY index was flat lined at 99.5.

The geopolitical situation linked to trade sanctions continues to remain chaotic and uncertain. However, a close-up analysis focused on the real impact of this new political paradigm has moved away from the initial knee-jerk reaction of the previous month. In its wake, a more stable Fixed Income environment encouraged a return of investors to high yielding investments, such as subordinated debt. Our fund managed to capture fully this trend.
