# ASG Dynamic Income Fund - I1 / A1 USD

International Bonds Portfolio

## **INVESTMENT STRATEGY**

The fund's investment objective is to achieve Income and long-term capital gains through a strategic allocation of its assets in a global diversified income-generating portfolio.

The fund invests in Preferred Securities, Senior Bonds, Junior and Senior Subordinated Debts, Hybrids Securities and Contingent Convertible Bonds.

Through a dynamic and active investment approach, ASG Capital strategically invests in Companies with strong balance sheets and sustainable earnings patterns that we believe they will reach a performance over and above an equivalent static portfolio. In addition, the investment managers use a flexible allocation method to achieve consistent risk adjusted returns.

Currency Hedging may be employed to protect against foreign exchange risk.

### PERFORMANCE COMMENTARY

The ASG Dynamic Income Fund performance share class USD I1 was up +1.48% for this month.

The volatility 'Move index' fell to just under 93 on average reflecting continued stabilization in Fixed Income markets.

We maintain balanced allocations:

- Neutral on long maturity dated bonds. The duration was stable at 4.12 years.
- Neutral Additional Tier 1 bonds, allocation was up slightly to 15.67%.
- · Neutral Subordinated Floaters.

· Neutral Cash and Short dated maturity bonds less than 1year.

US 2year swap rates fell slightly from 3.68% to 3.50%. US 10year swap rates fell also from 3.86% to 3.71%.

The DXY index fell to 96.9 from 99.5.

Interest rates have yet to clearly stabilize. They are still range bound. Despite this, credit spreads continue to tighten as Fixed Income volatility was progressively being reduced. Furthermore, this was carried by a generally weaker USD on currency markets which traditionally is bullish for risk assets.

The inflation picture remains unsettled leaving no clear direction as to near term future monetary policy changes. In the meantime, the 'White House' continues to push for lower interest rates, conscious of slowing economic activity in the United States.
