

ASG Dynamic Income Fund - I1 / A1 USD

International Bonds Portfolio

As of August 31, 2025

INVESTMENT STRATEGY

The fund's investment objective is to achieve Income and long-term capital gains through a strategic allocation of its assets in a global diversified income-generating portfolio.

The fund invests in Preferred Securities, Senior Bonds, Junior and Senior Subordinated Debts, Hybrids Securities and Contingent Convertible Bonds.

Through a dynamic and active investment approach, ASG Capital strategically invests in Companies with strong balance sheets and sustainable earnings patterns that we believe they will reach a performance over and above an equivalent static portfolio. In addition, the investment managers use a flexible allocation method to achieve consistent risk adjusted returns.

Currency Hedging may be employed to protect against foreign exchange risk.

PERFORMANCE COMMENTARY

The ASG Dynamic Income Fund performance share class USD I1 was up +0.70% for this month.

The volatility 'Move index' fell to just under 81 on average reflecting continued stabilization in Fixed Income markets during the month.

We maintain balanced allocations:

- Overweight on long maturity dated bonds. The duration increased to 4.77 years.
- Neutral Additional Tier 1 bonds, allocation was up slightly to 15.87%.
- Neutral Subordinated Floaters.
- Underweight Cash and Short dated maturity bonds less than 1year.

US 2year swap rates fell back from 3.69% back to 3.39%. US 10year swap rates also fell from 3.80% to 3.69%.

The DXY index fell from 100.00 to 97.7.

Interest rates have taken a clearer downward trend in anticipation of an up-and-coming Fed. Funds cut at the next FOMC meeting.

President Trump maintains this policy move to be too little too late.

The next few months will unveil which of these two Titans was right.

In the meantime, the appetite for high yielding bonds remains strong.
